PREFACE

Dear Reader,

Let us give thanks to the presence of Allah SWT, because of His blessings and grace we can re-publish the latest articles of the Journal of Animal Science Volume 23 Number 1, December Edition, Year 2023.

Articles published in the Journal of Animal Science have been selected and reviewed by the Editorial Team and peer-reviewed by Bebestari Partners who are competent in their respective fields. Only quality articles can be published in the Journal of Animal Science.

The topics presented in this edition include: microbial diversity in a mixed dairy cow manure and chicken manure compost, the quality of broiler chicken meat fed with dragon fruit (*Hylocereus polyrhizus*) peel flour, characteristics of jelly candy based on bovine split hide gelatin, analysis of factors affecting business performance of Agricultural Young Entrepreneurs Program (PWMP), nutrient value of pineapple peel silage with the addition of various carbohydrate sources, resource utilization in integrated oil palm - Bali cattle farms in Paser Regency, East Kalimantan, organoleptic test and physical quality of Sapudi lamb meat from several different muscle parts, effects of 1,25-Dihydroxyvitamin D3 supplementation on performance of 60-week-old layers, and a review of laying hens breeding's contribution to Indonesia's small-scale farmers' economic income. For closing, an article entitled: Effect of restricted feeding on sexual maturity and productivity of Padjadjaran quail.

We express our gratitude to the authors and Bestari Partners who have contributed to the publication of this edition of the journal. We also invite research colleagues and practitioners in animal agriculture to submit their manuscripts to be presented in this journal. We welcome suggestions and constructive criticism from readers and other parties. Please enjoy your reading.
